Coming from Dubai (Approx. 145km - 1hr 30mins): Take the E611 direction Sharjah and take Exit 71 and 71B (E102 Sharjah - Kalba Highway). Continue this highway until you reach the coast at Kalba. The first R/A you hit is directly opposite the big flag. Participants should take a right at this R/A and then the first road right towards Ain Al Ghamour. Follow the road approx. 2km to turn off right onto a dirt road and towards the camp. You will park on the left at the bottom of the hill (DO NOT go through the green gates to the Kalba Camp). On foot you will continue down into the wadi valley and you will find the start/finish point.

## ■ Race Check-In

Race check-in will be from 5.00am to 6.30am on the 15th December. PLEASE ensure you sign-in for the race - this is to make sure we know you have started the event and we can keep track of you.

## ■ Race Start Time

Race briefing will be at 6.45am. The race will start promptly at 07:00am. Starting in 3 waves with a short 1 minute between distances.

## ■ Course

The course is marked with flags, reflective tape and ribbon - you do not require a GPS for navigation, but it should be noted that we have experienced locals removing or moving markers in the past and although we will endeavour to check they are all still in place, you would be advised to use a GPS watch or know how to use a compass to locate start/finish and checkpoints. The terrain is mixed, goat trail, jeep track, rock field and wadi bed. You do not need specialised equipment but running shoes with good grip are recommended.

## ■ Checkpoints

There will be checkpoints approx every 6km where you will be provided with water, electrolyte and fruit.

## ■ Conditions

UAE daytime average temperatures are 35°C max and evening lows are around 25°C. The deserts and mountains of the UAE are wide open spaces with virtually no shade from the sun, it would be advised to consider good sun protection for your skin and a head cover. You will be running or walking on uneven, rocky and stony ground.

## ■ What to expect

If you are a first timer at ultra-trail races, then understand that you need to have good basic fitness. You need to be physically fit to take on long running or walking (and trust us when we say, you will walk some of the course). Understand that unless you have signed up with a running partner, ultra running is a very solitary experience and much of the time you will spend on your own. This is all part of ultra racing. It is a tough course and not for beginners to long distance events.

When physical fitness begins to play with your mind - that's when your mental strength and toughness kick in. Your body and feet will tell you that it's impossible to get to the finish - your mind needs to overcome any pain or discomfort to tell your body that you can and you WILL cross that finish line! Prepare to be pushed to your limits, mentally and physically. (Read Blister Care by Denise Jones here: ([www.badwater.com/training/blisters.html](http://www.badwater.com/training/blisters.html)) for some great advice on how to treat blisters.

## ■ Equipment

Make sure your running shoes are suitable for the rocky and sandy terrain. Heat, distance and constant friction will test your shoes (and feet) to the limit, so choose them wisely ensuring that the size will accommodate any swelling of your feet over these distances. Make sure they are worn in and are able to withstand the tough conditions. The contents of your pack will be important things to consider (no support outside of checkpoints is permitted) Make sure it is comfortable not just to run in fully loaded, but also to walk with. Your run changes with the weight and also how it is packed inside.

## ■ Lost?

It is highly unlikely that you will get lost. The route has markers and critical points will be marshalled to ensure your safety. The course will be marked along its entire length from between 200-500-metre intervals (subject to terrain) with pink spray paint, flags, reflective tape and ribbon. Please ensure you use common sense when following the route and avoid following other participants. You should have the emergency numbers logged in your mobile for any serious emergencies.

## ■ Creepy Crawlies

There are snakes, scorpions, camel spiders etc. in the UAE, particularly in the desert and remote areas we will be camping. Consider yourself very lucky if you encounter any of these wonderful creatures - most of them are harmless or only mildly venomous with no cases of death ever reported. But please be aware when walking around camp and be careful when packing up bags and equipment after overnighting.

## ■ Environment

Please be respectful of your surroundings and keep impact to a minimum. Leaving nothing but footprints when we leave. Any participant seen to be littering will be penalised or disqualified. Any packets left on the course or at camp and NOT in a litter bin will be given a time penalty - repeated offences result in disqualification.

## ■ Supporters

We welcome family and friends to the start and finish lines where they can provide you with moral support. Supporters are not permitted to support outside of checkpoints and may not accompany runners in a vehicle.
