Race briefing will be at 4.45am. The 21k and 60k races will start promptly at 05:00am. 10k runners will start at 8am.

■ Course

The race will start in darkness. **(21k and 60k runners! Head torches are NOT supplied, and are part of your mandatory equipment).** The course is marked with flags, reflective tape and ribbon - you do not require a GPS for navigation, but it should be noted that we have had locals removing or moving markers in the past and although we will endeavour to check they are all still in place, you would be advised to use a GPS watch or know how to use a compass to locate start/finish and checkpoints. Your 60km will take you through spectacular wadis, through boulder ravines, and over hilly passes.

■ Checkpoints

There will be 7 checkpoints over 60km where you will be provided with water, electrolyte and fruit. 21k and 10k runners will have 2 and 1 checkpoints respectively.

■ Medical Crew & Emergency

A medical team will be in attendance throughout the race to deal with serious injuries, however, issues with feet including blisters etc. should be dealt with using your own first aid and blister kit. Please note that some sections of the course are totally cut-off from 4WD vehicles and should any accident occur in these areas, you will need airlift evacuation or to be stretchered out on foot to the nearest RV location by mountain rescue.

Please ensure you have the Emergency Numbers programmed into your phone to enable an SOS call or SOS text for us to set an emergency code into action. Your emergency details should be accessible without having to unlock your phone - please ensure this is possible.

■ Conditions

UAE daytime average temperatures are 30°C max and evening lows are around 10°C with a chance of rain. The mountains of the UAE are wide open spaces with virtually no shade from the sun, it would be advised to consider good sun protection for your skin and a head cover and also good insulating clothes for the evenings as it can be very cold in the mountains. You will be running or walking on sandy, uneven, rocky and stony ground. You should consider sand gaiters for the dunes section.

■ What to expect

If you are a first timer at ultra-trail races, then understand that you need to have good basic fitness. You need to be physically fit to take on long running or walking (and trust us when we say, you will walk some of the course). Understand that unless you have signed up with a running partner, ultra running is a very solitary experience and much of the time you will spend on your own. This is all part of ultra racing. It is a tough course and not for beginners to long distance events.

When physical fitness begins to play with your mind - that's when your mental strength and toughness kick in. Your body and feet will tell you that it's impossible to get to the finish - your mind needs to overcome any pain or discomfort to tell your body that you can and you WILL cross that finish line! Prepare to be pushed to your limits, mentally and physically. (Read Blister Care by Denise Jones here: (www.badwater.com/training/blisters.html) for some great advice on how to treat blisters.

■ Equipment

Make sure your running shoes are suitable for the rocky and sandy terrain. Heat, distance and constant friction will test your shoes (and feet) to the limit, so choose them wisely ensuring that the size will accommodate any swelling of your feet over these distances. Make sure

WELCOME TO THE MT. SANA 60

they are worn in and are able to withstand the tough conditions. The contents of your pack will be important things to consider (no support outside of checkpoints is permitted) Make sure it is comfortable not just to run in fully loaded, but also to walk with. Your run changes with the weight and also how it is packed inside.

■ Lost?

It is highly unlikely that you will get lost. The route has markers and critical points will be marshalled to ensure your safety. The course will be marked along its entire length from between 200-500-metre intervals (subject to terrain) with pink spray paint, flags, reflective tape and ribbon. Please ensure you have a headtorch for the morning start and in case of emergency and not being able to reach the finish before dark.

■ Creepy Crawlies

There are snakes, scorpions, camel spiders etc. in the UAE, particularly in the desert and remote areas we will be camping. Consider yourself very lucky if you encounter any of these wonderful creatures - most of them are harmless or only mildly venomous with no cases of death ever reported. But please be aware when walking around camp on sand (use shoes) and be careful when packing up bags and equipment after overnighing.

■ Environment

Please be respectful of your surroundings and keep impact to a minimum. Leaving nothing but footprints when we leave. Any participant seen to be littering will be penalised or disqualified. Any packets left on the course or at camp and NOT in a litter bin will be given a time penalty - repeated offences result in disqualification.
